

Roast Beef Miner

Innovative DeFi on Binance Smart Chain
Upto 10% daily return and 13% referral bonus
Fully Verified and Audited Contract

WhitePaper

V1.0

What is the price of beef?

Beef do not have a set price.

Higher TVL more Beef per BNB, Lower TVL less Beef.
This creates level playing field so no user can be late.
There is NO calculator available to work this out.

What will my daily percentage be?

Daily percentage is up to 10%

This depends on eating habits, the time of day you
re-roast
or deposit and TVL fluctuation. Average daily return
is 7-10%

Why are my rewards not growing?

Eating habits effect rewards, you eat too much your
daily percentage drops. If you only started with a
small deposit it will take time to display on the dApp.
Only goes to 3 decimal places. TVL daily increase
can cause lower daily percentage

What happens if i always eat?

If you always eat your daily percentage will drop dramatically and will not receive the highest daily returns. This is the anti-whale mechanism that preventing a whale draining the TVL

Is re-roasting more often better, 2 or 3 times a day?

Re-roasting is the same as compounding. so essentially yes. You will need to pay standard BSC gas fees for every re-Roast.

What are 'Beef'?

Beef are the miners that are hired with BNB and work to get your rewards. This is just a term we decided to use.

Crypto OGs will know 'Beef' as BNB

Can I get my initial back?

Roast Beef Miner is a locked rewards pool, so no. You get your initial back over time through the my rewards section of the dApp

How come my referrals aren't showing | Where are they?

Your referrals show up in the 'My Rewards' Section of the miner dApp. Referrals are 13% of the deposit. 1 BNB deposit equals 0.13 BNB

What are the fees?

There is 3% dev fee taken upon ALL deposits and withdraw from Roast Beef Miner.

Standard BSC network gas fees are required for EVERY transaction made deposits, withdraws and re-roast! Common issue when re-roasting is no gas fees!

Do Beef amount decrease when you eat?

No, the 'Beef' amount will not change. If you make a new deposit or re-roast the amount will increase but not when you eat (take rewards).

The 'Beef' are less efficient over time if you eat too much

Is this sustainable?

Yes, as long as there is TVL in the contract then there will always be rewards. The hungry people who eat too much get punished and get lower and lower rewards. It will last a long time the higher the TVL is

What is the best strategy?

We recommend the tried and tested method as in it is written in the contract.

Re-roast 6 days and eat 1 day a week. It will compound your investment and receive your initial back in 3-5 weeks

What prevents the devs from rug pull?

The contract is immutable and fully audited by Haze Security. Therefore cannot be changed or altered in any way shape or form. It is audited and verified. You can view this on bscscan.com and the audit it is found on the website

The 6/1 Strategy explained?

It is 6 days not 6 re-roast. In those 6 days yes you can re-roast as many times desired.

It is just compounding faster.

Is it too late to invest?

No, the contract is written to provide an optimal entry for any and all users, new or old. This is the reason the beef per BNB amount changes frequently with TVL fluctuation to provide an even playing field for any new user coming to Roast Beef and not giving the first user/s a headstart

Can contract functions be added?

No, the contract is immutable and cannot be changed. The contract works perfectly well as it is.

No wallets can be blacklisted, no forcing people to re-roast 6 days and eat 1 day a week. Nothing can be changed

Does it have an anti whale mechanism?

The contract has an in-built anti-whale mechanism. This works as follows; User 1 re-roast 6:1 gets highest daily percentage in that 24 hour period. User 2 does 5:2 gets a lower percentage. User 3 does 4:3 gets lower percentage again. This happens all the way until the user who eats continually rewards will drop to 0.5% per 24 hour period. This is to prevent 1 user draining the TVL, creating sustainability

What is the minimum deposit?

0.01 bnb minimum deposit requirements.

If there are rewards in the "My Rewards" section and you make a new deposit both the new deposit and rewards are transferred into Beef

What is minimum re-roast?

There is no minimum re-roast requirements.
You will always be charged standard BSC BEP20 gas fees
for every interaction with the contract

What's the roadmap long term?

Roast Beef aims to become the largest Dapp on Finance Smart Chain. Roast Beef will integrate with large swaps such as Pancakeswap in the near future. Roast Beef will have a plan for releasing token and airdrop to all early investors of Roast Beef Miner.

DISCLAIMER

We DO NOT guarantee 10% a day it is up to 10%. Roast Beef Miner is illegal in certain countries please consider this when investing.

Do not invest more than you can afford to lose.
